GENERAL

It shall be a condition of entry for any competition that Members Annual Subscriptions, Season Tickets and Competition Entry Fees have been paid before playing in that competition.

The Competitions Committee shall arrange for the draws to be made for the preliminary and first rounds of each competition, and shall fix the periods during which the various rounds must be played.

The Competition Secretary will be responsible for the strict enforcement of the competition rules and dates.

The first named player in any draw shall be deemed the challenger. It is the challenger's responsibility to offer their opponent the choice of at least 3 suitable dates within the first of the allotted periods. If the opponent had not heard from the challenger within one week of the closing date of that round, they should contact the challenger so that the necessary arrangements for the game to proceed can be made. In the event that it is not possible to make satisfactory arrangements, the Competition Secretary must be informed immediately.

Agreed dates should then be entered into the Diary and numbered 1, 2 and 3. Fourth or fifth matches may be added on the clear understanding that they do not have priority and can only play if rinks are not being used or by waiting until one of the first three matches has finished.

In every singles competition the challenger (i.e. the first named player) shall be responsible for arranging a **marker who must be a member of the club**. If the challenger fails to arrange for a marker to be present the opponent has the right to claim the game. It is a requirement that all those who wish to **mark** attend one of the marker's courses.

If a round is not finalised by the last date fixed by the Competition Committee, the defaulting player (or players) shall be liable to forfeit the game, this being at the discretion of the Competition Committee.

No competition final shall be played (or an award made) unless the finalist has played at least two rounds prior to the final. A walkover will not be considered as a played game.

No member knowing that they will be unable to play in finals day should enter a competition. Should they subsequently find that they are unavailable on that day, they should withdraw immediately from that competition. Exceptional circumstances will be considered by the Competition Committee, whose decision shall be final.

Players taking part in the first game of a pairs or triples competition shall constitute the team and shall normally play together throughout the competition. However, one additional player may be used as a substitute providing that he/she has not entered or played in that competition. A substitute may play in any position **except skip**. Once a substitution has been made the person substituted will **not** be able to rejoin that competition.

If a singles player or team decides to withdraw from a competition in any round then their opponents shall be awarded a walkover.

Players should arrive at least 10 minutes prior to the time fixed for the commencement of the game to enable the rink to be drawn. One member of each team playing at any one time must be present before the draw is made. If the start is not 10.00 a.m. 2.00 p.m. or 6.00 p.m. then only those rinks not being played on at the start time should be available for the draw.

If a player is not ready to commence playing within 15 minutes of the agreed time for the game, the other party/team may claim a walkover.

Not more than three competitions are to be played at any one time and only one competition when a men's aggregate is being played this leaving the public rink also available.

The rinks drawn for the men's aggregates shall take precedence over competitions, with the exception of National, County and inter-club competitions when they will have the first choice.

All available rinks must be used for the draw and played in the direction shown on the club house notice board. Any non conformance to this will result in disqualification.

If a dispute should arise, it will be determined by the Competition Committee whose decision will be final. The Committee consists of the Competition Secretary and the Captains.
